INTRODUCTION TO NEVAS

Nevas is more than just water; it's an experience. Born from the vision of Budhia Beverages, a family-owned company built on passion and dedication, Nevas embodies the essence of premium bottled water. In 2022, young entrepreneur Keshav Budhia embarked on a quest to create a global brand that redefined the bottled water experience. Driven by a love for beverages and a commitment to quality, he founded Budhia Beverages and introduced Nevas to the market.

Nevas water is made with great care, using high-quality sources known for their excellent minerals. Beyond its intrinsic quality, Nevas prioritizes purity from source to bottle. Our production process ensures no human contact with the water, guaranteeing its untouched nature. Additionally, our fully BIS-compliant plant operates under the watchful eye of dedicated professionals who continuously monitor quality at every stage. This unwavering commitment sets Nevas apart.

Presented in elegantly designed bottles, available in three convenient sizes: 200ml, 500ml, and 1000ml, Nevas elevates any occasion. Whether you are seeking a personal indulgence or an elevated addition to your table, Nevas complements your desire for both quality and style.

Nevas is the first and only Indian company to offer this unique and luxurious water experience. But our journey doesn't end here. At Budhia Beverages, we are committed to innovation and plan to expand our offerings with more delicious and exciting beverages in the future. Ready to experience the Nevas difference? Explore our bottle sizes to find the perfect fit for your lifestyle. Visit our website or find us at your nearest luxury retailer to elevate your hydration today.

REVITALIZE YOUR HEALTH WITH NEVAS PURE REFRESHMENT, ENHANCED WELLNESS

Nevas isn't just water; it's a curated portfolio of premium bottled water experiences designed to cater to your unique hydration needs and preferences. Each Nevas product is meticulously crafted with purity, taste, and well-being in mind, offering a refreshing escape from the ordinary. Let's dive into the distinct characteristics of our three product offerings:

Mineral Water

Uncompromising Purity: Our Mineral Water undergoes a rigorous 13-stage filtration process, ensuring pristine quality and optimal taste.

Mineral Replenishment: Naturally occurring Potassium and Magnesium are retained, adding essential minerals often stripped away in standard purification.

Spring Technology Advantage: Experience the difference! Our unique spring technology delivers a naturally smooth and subtly sweet taste.

Enhanced Oxygenation: Ozone Booster technology infuses the water with extra oxygen, promoting freshness and vitality.

Alkaline Water

Authentic Alkalization: Platinum Plate with Electrolytes technology, the gold standard for natural alkalization, gently elevates the water's pH level.

Unlock Uncountable Benefits: Enjoy the potential advantages of alkaline water, including improved digestion, enhanced mineral absorption, and antioxidant support.

Hydration: Refresh your body and mind with the perfect blend of taste and potential health benefits.

Vitamin B12 Water

Vitamin B12 Boost: Enriched with essential Vitamin B12, vital for energy production, brain function, and nervous system health.

Enhanced with EMF Technology: This innovative technology ensures the water retains its natural ionic structure.

Supports Healthy Hair and Nails: Biotin, naturally present in Vitamin B12, contributes to the health and beauty of your hair and nails.

Promotes Red Blood Cell Production: Vitamin B12 plays a crucial role in the formation of healthy red blood cells, essential for oxygen transport.
